

STOP THE BLEED

1

CALL 911

Immediately call 911 for assistance.

2

WEAR GLOVES & APPLY PRESSURE

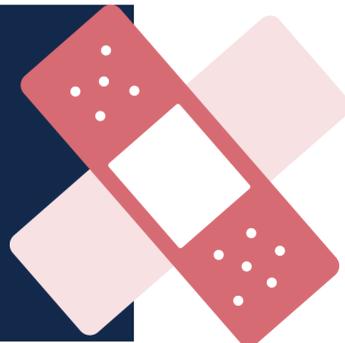

First, wear gloves and then, use your hands to apply pressure firmly on the source of the bleed.

3

APPLY A DRESSING & PRESSURE

Apply a dressing upon the wound and press firmly to stop the bleed. If bleeding persists...

4

APPLY A TOURNIQUET

Apply a tourniquet above the injury and fasten tightly. If bleeding does not stop, a second one may be added.

**IF YOU FIND SOMEONE BLEEDING,
IMMEDIATELY CALL 911.**
