To receive a ProBoard certificate one must complete the corresponding IFSI course. For these various courses, the ProBoard Seal and number will be on the downloadable IFSI certificate of completion when it becomes available following the class - no additional forms or payment is necessary. IFSI is paying the certificate fee on the student's behalf, except for Fire Officer I and II.

\*Fire Officer I or II:

For Fire Officer I or II ProBoard certificates, since they are not classes, the student will need to contact the curriculum and testing office to obtain the Pro Board application. The student should then return the application along with a \$15.00 check or money order payable to NBFSPQ. The student also needs to submit a copy of their OSFM Fire Officer I and/or Fire Officer II certifications. A separate application and \$15.00 payment is needed for each level. IFSI will complete the Certifying Entity section of the Application and mail all required components into ProBoard.

To obtain the application e-mail: fsi-curriculuminfo@illinois.edu

\*\*Vehicle and Machinery Level I or II:

Though it is not a prerequisite to take the IFSI classes, to receive ProBoard certification for either Vehicle and Machinery Operations/Technician Level I or II, the student must have completed Rope Rescue Operations Level I. If the Rope Operations - Level I class is/was not completed through IFSI, the student needs to submit proof of course completion to IFSI before the ProBoard certification will be granted.

**The Department of Defense  
will accept  
ProBoard and IFSAC  
certifications.**
